

ELECTRONICS TECHNICIAN FOR OPERATING TECHNOLOGY

The three-and-a-half-year training programme for electronics technicians for operating technology prepares you for exiting and responsible tasks. In cooperation with the vocational school, you regularly alternate between vocational school blocks and practical phases. Electronics technicians for operating technology manufacture mechanical parts and connections and are responsible for laying and connecting lines and cables throughout the company. In addition, they are also responsible for the assembly, installation and wiring of energy systems.

Training location:

Nordgetreide GmbH & Co. KG, Lübeck, Falckenhagen

Deutsche Tiernahrung Cremer GmbH & Co. KG, bundesweit
